*Optional GPS Monitoring Service

***In addition** to the above information that customers can pull from their web portal, for complete security, the following events can be monitored and responded to by a **Certified Operator 24hours a day/7 days a week**:

- Geo-fence Zone Violation Notifications
- Panic Alert Emergency Response
- Auxiliary Theft/Vandalism Option
- Emergency Locate

**** Service Plan Notes:**

- Roaming into Canada or Mexico is additional.
- Location/tracking history will be available online for 90 days.
- On the **Basic plan**, a subscriber should be able to locate the beacon every 15 minutes, 10 hours a day, every business day of the month.
- The preceding is only an estimate; actual data transmission rates will vary.
- Prices subject to change.

Benefits To Your Business

Businesses that have implemented mobile monitoring solutions see significant benefits across the board:

Safety & security

- Recover stolen assets and reduce insurance premiums
- Reduce downtime by locating misplaced assets quickly
- Attract and retain personnel by providing the best security available

Productivity

- Eliminate on-the-job moonlighting
- Confirm drivers are taking the best routes between jobs
- Save on fuel consumption and reduce vehicle wear and tear

Customer service

- Re-route field personnel to handle unscheduled customer issues
- Proactively notify customers with updates on driver status
- Generate accurate billing reports based on time spent at job-site
